

COVER **all** CHILDREN

All children are created in God's image.

They deserve the blessing of good health. No child should go without treatment or depend on the emergency room for their health care.

Despite progress in covering more children there are still **9 million uninsured young people**, including many in our community.

Our congregation is working as part of PICO's **Cover all Children** campaign to see that every child in America has health coverage.

Covering all children in the United States is within reach. **Let's work together to raise the healthiest generation in American history.**

WHAT YOU CAN DO to help

- ! **Visit www.coverallchildren.org** to learn more about what is at stake in your community and what you can do to make a difference.
- ! **Call your member of Congress at (202) 224-3121**—urge them to support full federal funding for the Children's Health Insurance Program to help states cover all children by 2012.
